If, for any reason, WPU 057303 becomes unavailable, the BLS Producer Price Index for Light Fuel Oils, WPU 0573 will be used in its place. For the purpose of this clause, the term "fuel cost per Contract unit" means that part of the Contract unit price that is attributable solely to the cost of fuel. The fuel cost per Contract unit is established below:

Description	Fuel Cost Per Contract Unit
Dredging.....	10% of the Contract unit price
Dredge Towing Service Upstream.....	35% of the Contract unit price
Dredge Towing Service Downstream.....	35% of the Contract unit price

b. The latest Preliminary BLS Producer Price Index for No. 2 Diesel fuel, WPU05703 available on the BLS website at the time of bid opening shall be recorded in Contract documents and shall serve as the basis of any price adjustments throughout the Contract, to include any option periods, if exercised. The monthly fuel price adjustment shall be calculated by multiplying the fuel cost per Contract unit as determined above, by the percentage change in the Preliminary BLS Indices, by the quantity of work performed under the line item. A price adjustment, upward or downward, shall be made on each monthly payment. Option periods, if exercised, shall be calculated in the same manner, always comparing to the Preliminary BLS Index established at the time of bid opening. If any preliminary index is later revised by the BLS, this contract will **NOT** be adjusted based upon the revision.

Fuel Price Adjustment for each line item =
 Dollar Amount of Line Item X Percent of Contract Unit Price X
